Solaris to supply more trams to Leipzig

09 Dec 2016

The Leipzig network operates a mixed fleet.

GERMANY: Leipzig transport authority LVB is to exercise a second option to its contract with Solaris, following the approval by the *Land* of Sachsen for a further €7.3m towards the purchase of rolling stock.

This meeting by invitation only, where MPs, Stakeholders etc., within the Light Rail industry and invited members of the Public will have a chance to discuss debate and raise questions concerning Light Rail & Trams.

The latest funding package would cover half the cost of a further nine trams.

In 2015 LVB selected Solaris to supply five trams for €7.7m, with options for a further 36. The first tram from the base order is due to arrive in Leipzig this month, with entry into revenue service on the 1 458 mm gauge network expected early next year.

At 37.6 m long and 2 300 mm wide, the latest batch will differ from the initial build. The four-section vehicles will be 65% low-floor
