Light Rail (UK) Group

Auchenshuggle Junction, 8 Beechmore,
Moore, Warrington, Cheshire, England, U K.
Tel (+44) (0)1925 740675 (0) 07721378223

Dear Colleague,

Please accept my apologies if you have received multiple copies of this invitation, my IT staff are working on this issue and hopefully will be resolved soon

I am delighted to invite you to the Hydrogen Trams as a Service Working Group, proudly supported by Clean Futures and hosted by BCIMO at the esteemed Very Light Rail National Innovation Centre Dudley

This exclusive session brings together key light rail stakeholders from across the UK for an engaging and thought-provoking discussion. Participants will explore the latest advancements in hydrogen technology and the transformative opportunities it presents for the future of the UK's light rail sector, particularly within regional development.

I look forward to your participation in what promises to be an insightful and dynamic conversation.

Please register via the Eventbrite link provided below.
